PLEASE NOTE: The property owner(s) must sign this application to verify the contractor or tenant has permission from the property owner(s) to do all construction work authorized by the issuance of this permit.

The undersigned makes an application for a permit in accordance with Doylestown Township Ordinance No. 188,
Chapter 145, and Chapter 153, Section 39 of the Township Code.

By signing this application, authorization is granted to any municipal representatives of Doylestown Township to access the above property as stated within this application and attached sub-trade permit application at any time, without an administrative warrant, to inspect and verify that any proposed use and/or structure contained within this application and/or that exists on the above property complies with all Doylestown Township zoning and building code ordinances.

The application together with the site plan and construction documents is made a part of this application by the undersigned. Furthermore, it is clearly understood and agreed to by the applicant and property owner that the Township office is not responsible for any property dimensions shown on the site plan and establishment of property lines is the sole responsibility of the property owner and applicant. The applicant and property owner also agree they are responsible for the replacement to Township standards of any Township road or infrastructure which is damaged during the building of the permitted structure and understands that the information provided on this application by the applicant(s) and property owner(s) is true and correct to the best of their knowledge or belief, and all information contained in their application becomes part of the public record. The applicant warrants the truthfulness of the information in the application, and that if any of the information provided is incorrect, the permit may be revoked. Furthermore, the application and permit can provide that if the permit is issued wrongfully, whether based on misinformation or an improper application of the code, the permit and certificate of occupancy may be revoked.

Written approval of final inspections will be required from all other agencies issuing permits for this project before a Certificate of Compliance can be issued. By signing this application, the applicant certifies that all the information is correct and that the property owner has authorized work and inspection of that work. All work to comply with the PA UCC as amended as applicable.

#### **DEFINITIONS**

**IMPERVIOUS SURFACE** – Any surface which does not absorb rain; all buildings, parking areas, driveways, roads, sidewalks and any areas in concrete, asphalt, packed stone, pavers on sand or other equivalent surfaces. In addition, other areas determined by the Township Engineer to be impervious within the meaning of this definition shall also be classified as impervious. For purposes of this definition the areas of a swimming pool or pond located inside the coping shall be classified as impervious.

**NET BUILDABLE SITE AREA** – Net buildable site area is calculated for the purpose of determining allowable impervious surface and land permitted to be developed. Net buildable site area equals total lot area contained in the subdivision or land development application:

- (a) Minus ultimate rights-of-way of existing streets;
- (b) Minus land which is not contiguous or which is separated from the site by a road or railroad;
- (c) Minus land shown on previous subdivision or land development plans as reserved for open space or other uses which restrict it from development;
- (d) Minus all land restricted by easements or covenants; and
- (e) Minus land required to be left open for resource protection or to meet minimum open space requirements of this chapter.

**IMPERVIOUS SURFACE RATIO** – The total area of all impervious surfaces divided by the net buildable site area.

#### IMPERVIOUS SURFACE PERMITTED TO BE DEVELOPED
