

MAINTENANCE AGREEMENT

Doylestown Township will provide basic maintenance for indoor facilities and outdoor fields, including routine cleaning, trash removal, and general upkeep before and after events. Renters/Providers are expected to return the facility in the condition it was found, free of excessive trash, spills, or damage. Additional fees may apply for repairs or cleanup beyond normal wear and tear. Renters are responsible for their own equipment setup and takedown. No permanent modifications or installations are permitted without prior township approval.

Athletic Associations must handle all field-specific maintenance (e.g., lining, setting bases, goals) during their approved permit period. Motorized vehicles are restricted to designated parking zones unless pre-approved by the township. Any improvements or modifications must be requested in writing 60 days in advance for township review.

Portable structures must have prior approval and must be removed promptly after permit expiration. The township reserves the right to remove any unapproved or abandoned structures, with associated costs billed to the renter.

The township will conduct site inspections and may require restoration of any areas affected by excessive use. The township also reserves the right to cancel or reschedule events for maintenance or preservation needs, making efforts to minimize disruptions.
