RE: Pebble Ridge/Woodridge and Vicinity Sewer Project

Dear Resident;

We are pleased to announce that Doylestown Township has completed the closing on the PENNVEST loan for the above referenced sewer project. In addition, we have a tentative timeline for the construction to begin from Bucks County Water and Sewer Authority (BCWSA).

BCWSA anticipates construction to begin the end of July, beginning of August 2018, weather dependent. They will be sending a confirmation letter to each property owner shortly outlining a more detailed schedule. BCWSA Chief Operating Officer John Butler indicated that, if individuals or small groups from various streets would like to meet with him to discuss how construction on your particular street will occur, he is more than willing to meet. You can reach Mr. Butler at BCWSA by emailing Jeanne McCreary at [m.jeanne@bcwsa.net](mailto:m.jeanne@bcwsa.net) to set up a meeting.

We understand that the construction of the sewer project will be disruptive to the neighborhood anywhere from 18 months to 2 years. While noise, dirt and dust will occur from the actual construction, BCWSA will do their best to minimize the impact as best they can. Work will be taking place between 8:00am- 4:00pm, Monday – Friday. If anyone is planning a large gathering at their home at any time during construction, please coordinate with BCWSA regarding parking for such an event. This way equipment and materials being stored in the area can be addressed to minimize the impact upon your gathering. Weekly updates will be provided via the Township and Authority's websites. During construction the Township will be working with BCWSA to replace some of the deteriorating storm sewer pipes. Once the sewer project has been completed and we have full access to the roads, we intend to repave the roads.

As stated above, this project will be getting underway later this summer. As we indicated, during the meetings last summer, billing will not incur until the project is completed. At that time property owners will have the ability to either pay their fair share of the pipe in the street in full and/or apply for the loan program.

Any questions, please feel free to contact the Doylestown Township Administration office at the number below.

Sincerely,

Doylestown Township  
Board of Supervisors
