4. There was no Verizon update.
5. The Board discussed the sale of equipment to Chalfont Borough. They stated that if Chalfont needs some help getting the equipment set up they are more than willing to help.
6. Mrs. Zadell provided the group with an update on the moments in time piece. She stated that Mr. Salvati is in the process of clipping the Josh Feldstien piece and that she has been working on the Allen Gilmore piece. They are going to clip all the recordings before organizing them into something complete. She also stated that they made a timeline for when the project should be finished and they are thinking sometime around November 2011.
